Title of the Advisor / Name Surname:

Signature:

Article 44/C of Law No. 2547 on Higher Education: Senior students are granted two additional exam rights for all failed courses in order to graduate from the educational institution they are enrolled in after the maximum durations. Those who reduce the number of failed courses to five after these exams are given three semesters for these five courses; students who fail up to five courses without taking supplementary exams are given four semesters (two academic years in institutions where teaching is conducted according to the pass-fail principle); those who fail in only one course are granted unlimited rights to take exams for the failed course without enjoying the right to student status.

The Application Petition will be submitted to the academic unit registered until February 28, 2023.
